

## CLAIMS

1. A wire harness excessive length absorbing device comprising:

a case for receiving a wire harness having an inlet and an outlet for the  
wire harness;

5 an urging member for urging the wire harness toward an inside of the  
case; and

a harness roller on which the wire harness being rolled, said harness  
roller reciprocally moving under acting forth of the urging member,

10 a harness guide mounted on the outlet and curved toward the inlet for  
guiding the harness to the outside of the case.

2. the wire harness excessive length absorbing device as claimed in  
claim 1,

wherein the harness guide is curved in the same direction as a direction  
of the wire harness being rolled on the harness roller.

15 3. The wire harness excessive length absorbing device as claimed in  
claim 1 or 2,

wherein a radius of corner of the harness guide is formed equal to or  
larger than a thickness of the case.

4. The wire harness excessive length absorbing device as claimed in any  
20 one of claims 1 to 3,

wherein the outlet is disposed in a direction perpendicular to that of the  
inlet.
